Learn **How You Can Take the Five Candle Mastery Strategy** and Immediately Make Trades Easier To Find Using Our Simple but yet **POWERFUL Indicator!**-  
Guaranteed

## **This indicator will make that a reality!**

This tool is designed to fit any traders style of trading no matter what time frames they prefer or what markets. The strategy in itself is a winner which makes the indicator a must have if you are serious about trading this new strategy that has been taking traders profits to an entire new level!

A dramatic increase in your profits means that you will no longer be needing to go searching for new ways to trade the markets. You found what you needed and you are on your way to becoming what could be a full time trader.

If that is what you desire, **to be a full time trader**, then this indicator can take you there and we will be guiding you the entire time on this journey to success!

Let me break this down even further how all of this could be possible right now...

## **We know without a doubt that this is what it takes to be successful trader.**

The Five Candle Mastery Strategy is a winning strategy but we did not stop with just getting you the winning strategy. We want to make it even easier and faster to trade by providing the trading Indicator with specific Stop Loss and Take Profit Targets that the strategy teaches you.

It has everything in there that will show you by far our most successful and sought after strategy to this day. If that is all you desire and you think that you will need to be successful then that is great!

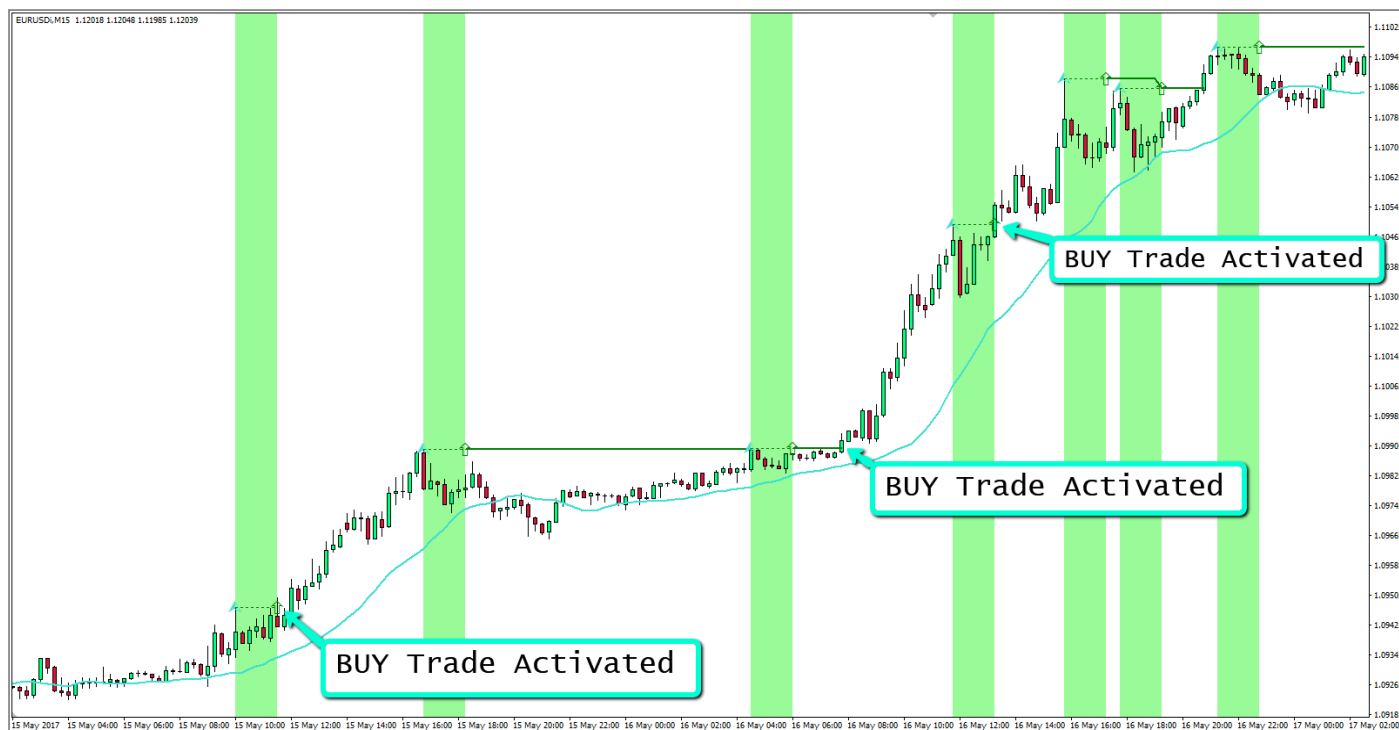

## **BUT...**

What If I told you that there is a special unique indicator that shows you 5 candle mastery strategy profitable entries over and over again, with ZERO work on your part. **We developed this special tool to make the learning curve so short that you can learn it in a single day.** All you need to do is download to your trading software and let the indicator do the work for you! It will show you everything from placing a stop or buy order, showing you when to enter the trade, and where to place your take profit and stop loss.

That's right, you know the strategy, you know how powerful it is, so why not take it to the next level with a trading indicator.

**The Indicator Will Double or Triple Your Returns By SHOWING you Multiple Entry Points for every trade.**

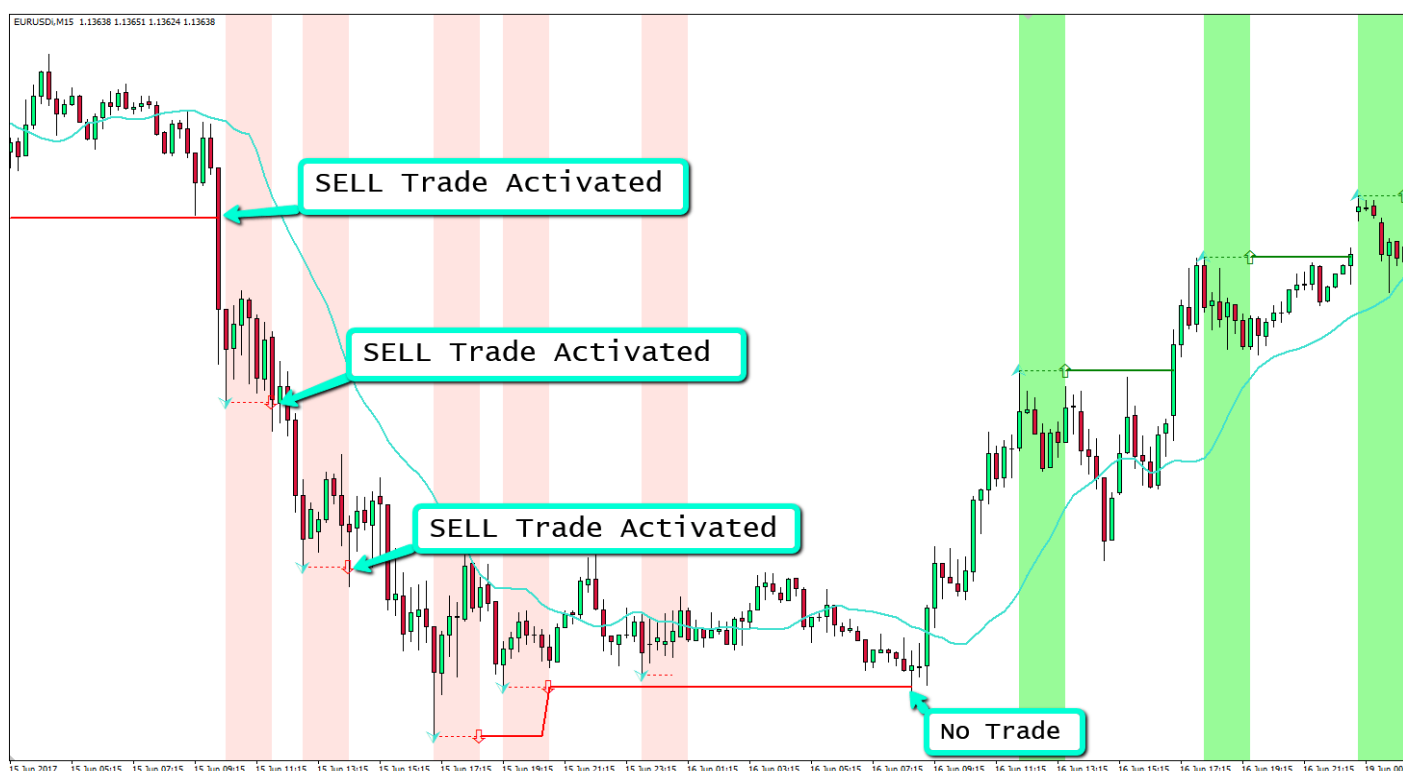

As you can see in the image above, the trade is only triggered when all of the important rules of the 5 candle mastery strategy are met.

The unique **green colored background** will show you that a BUY trade setup is happening now...

The unique **red colored background** will show you a sell trade setup is happening which will look something like this:

We made sure that you know a distinct difference when searching for these powerful trade entries so we made this dead simple indicator to help every trader master this strategy!

**We know how precious your time is, so why waste any of it searching for trades when you can use this powerful indicator..**

Your time searching for trades has an incredible value if you have ever thought about that before. We actually value our time searching for trades to be worth right around \$1,000 an hour.

At that rate, since the Five Candle Mastery Strategy is going to save you hours of time per day trading the markets, **could equal several thousand dollars in savings each and every day you are trading!!**

Trading with indicators not only cut down precious time searching for trades, but it also keeps your mind focused on the strategy itself that you are trading.

The five candle mastery indicator is a must have, if you are serious about trading this strategy consistently and profitably..

## **Why You Need The Five Candle Mastery To Be A Consistent Profitable Trader**

You need to completely understand right now why you need this unique Five Candle Mastery Indicator. This indicator is the final puzzle piece you need to be a full time trader.

Let talk indicators for a second and why they matter to every market trader!

One of the main elements of an indicator is that it shows price movement on a chart in a visual way to help the trader decide what is currently happening with the price action.

Now whether you prefer a bar chart, a line chart, or a candlestick chart (recommended) they are all designed to help you see what the price is currently doing.

If we use the definition of the indicator itself there is no reason why we should not be using indicators to our advantage as traders.

It is going to show you an additional indication of where price is going and what price is going to do in the future.

## Step One: The Indicator will be activated based on the strategy.

This will be indicated by the down fractal and the red colored background (for a sell trade). This will proceed to go for 5 entire candles as the strategy states.

## Step TWO: Place your sell Order Indicated By the ALERT that Indicator Sent to you.

Once you do that you wait for the **Magic to Happen based on our 5 candle Mastery Strategy**. If it follows the strategy, the price action head down and break that fractal, triggering your **SELL ORDER**.

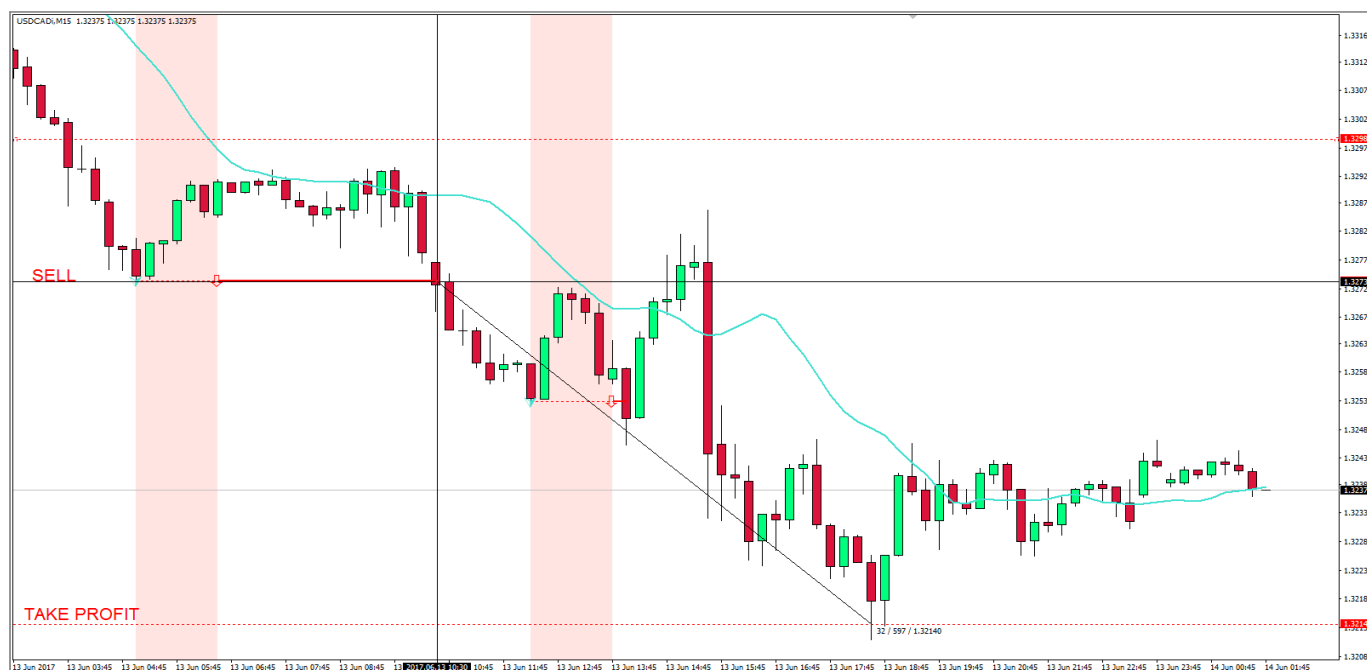

## Step THREE: Wait for Order to Trigger

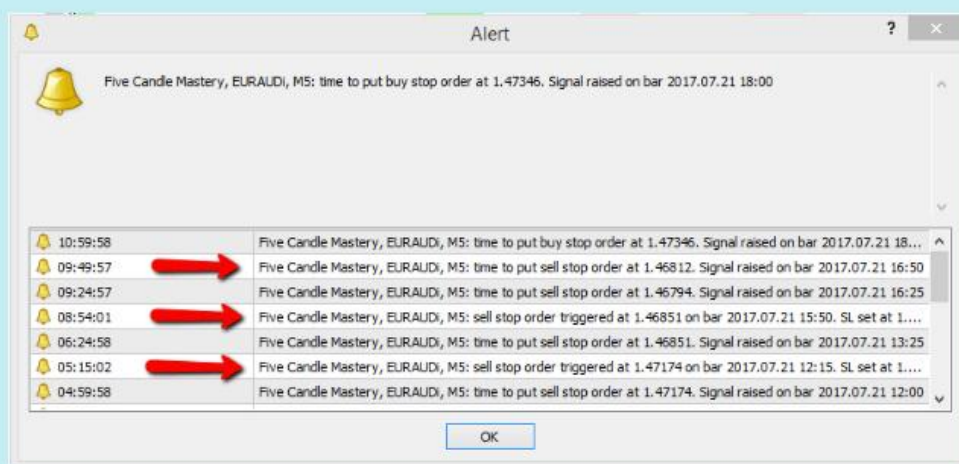

Once your order is triggered you are in the trade! Only thing left to do is make sure your Stop Loss is where the strategy teaches you to place it and you are set!

**Below is where you could have exited the trade:**

**This indicator also tells you exactly where to enter, where to place your stop loss, and where to place your take profit target!**  
**All you need to do is simply wait for the alert to trigger..**

**Then make the Trade and place your Stop loss and Take Profit!**

**If you want to Trade more then just the 1:1 Risk Reward Ratio then we got you covered!**

	Draw stop loss and take profit levels	true
	Stop level deviation from alligator te...	1
	Risk:Reward (1:X)	1
	Show alert when it's time to put stop or...	true
	Show alert when stop order triggers	true

**In the Settings simply change the R:R to your desired target. Using the same example here is what the 1 Risk to 2 Reward Ratio would have looked like..**

**The 5 Candle Mastery Indicator is built ONLY to Land you Profitable Trades that Will Produce Trades Results Like You see Below...**

The Five Candle Mastery Indicator continues to show consistent profitable entries not matter what market we tested it with.

Like this USDJPY trade taken with the 5 Candle Mastery Strategy. Profit of \$1209.78
