Download STM Indicators

SCIENTIFIC
TRADING MACHINE

ScientificTrading Machine © 2015, All Rights Reserved.

Go to the "Tools & Indicators" page inside members' area and download your STM Indicators by clicking on big Red button "Download STM Indicators"

Step #2 Setting Up Your Charts

The first step is to setup your authentication indicator. Inside the MT4 "Navigator windows" you'll see the STM Authentication indicator.

Just drag and drop it to the chart (you can double click as well).

Step #3 Setting Up Your Charts

Custom Indicator - STM_Authentication

About Common Inputs Dependencies Colors Visualization

Variable	Value
note	===== Authentication SETTINGS =====
Email	your email account here
ClickBankReceipt	your ClickBank Receipt here

Load

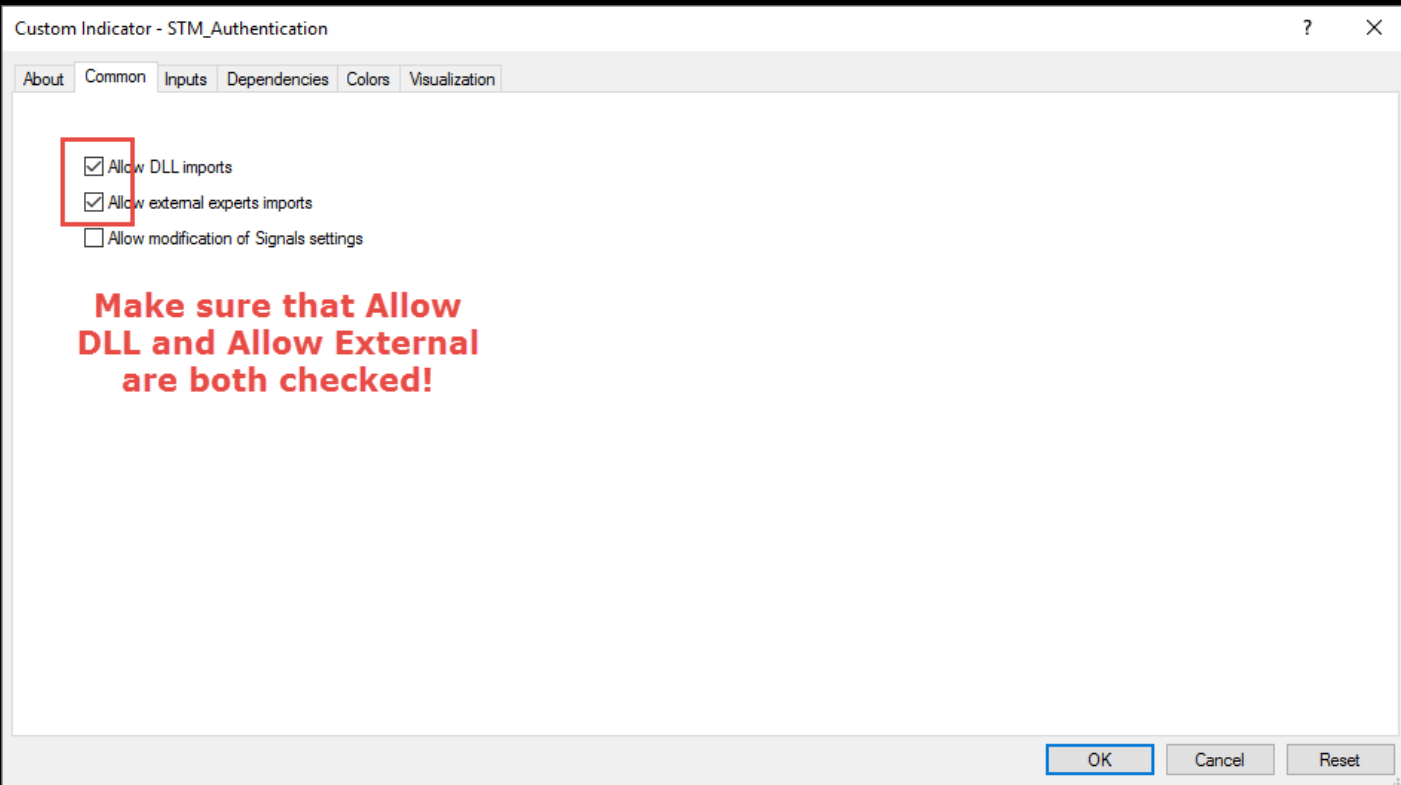

Save

OK Cancel Reset

Note

Load: STM Main Autheticated.tpl
and it will work without any Email and
Clickbank Receipt

Step #3 Setting Up Your Charts

Important Part! Inside the "Common" tab you must make sure that you have "Allow DLL Imports" & "Allow external experts imports" both checked.

Otherwise our authenticator won't work.

Once that's done you can click OK.

Step #3 Setting Up Your Charts

Now, right click on the chart and inside templates load the "**STM Main Autheticated.tpl**" and it will work without put Email and Clickbank Receipt manually.

Step #3 Setting Up Your Charts

After your template is loaded your chart should look similar to this one!

Step #4 Enjoy Using STM

Every time you want to use our template, just load your "STM Main" and it will work on all time frames
