◆ FBS allows European clients to trade today, without verification for two weeks. Try FBS, the broker that supports Forex-station's free work.

FBS EU gives you two weeks to verify your account!

FBS EU is a broker that has proven itself in the European market. No jokes here – FBS EU has been awarded the "Best Forex Broker Europe," the "Most Progressive Forex Broker Europe," and is regulated by CySEC – one of the most severe financial regulatory agencies!

Every day FBS EU does everything to improve work and conditions for the customers and prove that there is no limit to perfection. This time FBS EU has improved a users' verification procedure.

Verification of the account takes a lot of time and tons of documents at once. FBS EU decided to make this operation more accessible and give its users up to 2 weeks to finish verification!

If one doesn't have some documents right now, it's no longer a problem – deposit up to \$2000 without a complete verification. But notice that some functions will become accessible only after the verification is completed, such as a PRO trader option and the increased leverage up to 1:500.

◆ W. Blau created the SMI (Stochastic Momentum Index) as a leading indicator to signal early shifts in momentum, allowing traders to precisely time entries/exits for profit. Mrtools' new, non-repainting version now includes his colored OBOS Zones + more: <https://forex-station.com/viewtopic.php?p=1295422529#p1295422529>

◆ Over the weekend we've seen some notable contributions including the Rainbow ATR (Average True Range) Bands for MT4 made by Rox. Simple & ideal for trading range-bound markets, such as the Asian session, download, here (includes chart template): <https://forex-station.com/viewtopic.php?p=1295422102#p1295422102>

◆ Last week we saw the Divergence Pack upgrade added to the legendary RSI 16 Lines MA, this week Mrtools has further developed this code with the help of TEAMTRADER to now feature Colored Zones + Arrows + Alert Options & much more. Download the update: <https://forex-station.com/viewtopic.php?p=1295422018#p1295422018>

◆ The Smoothed Momentum is a prominent tool for scalping & Mrtools' upgraded version includes Floating & Quantile Levels + MTF + Alerts & Color Change Display options. If you're an active trader, be sure to download this code & add it to your toolbox: <https://forex-station.com/viewtopic.php?p=1295421865#p1295421865>

◆ By observing Mrtools & Mladen's codes, future coders are able to learn & create tools of their own & our member "Darks" has created a special "Nema 1.2" which calculates the depths of EMA's by up to 50 times & includes Floating + Quantile levels & more: <https://forex-station.com/viewtopic.php?p=1295421831#p1295421831>

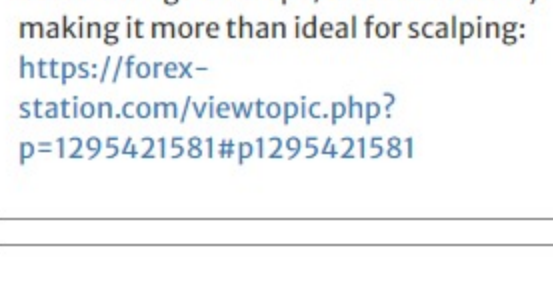

◆ The CCI "Squeeze" indicator is a CCI (50 period with Histogram fill + an MA) which aims to display the overall trend & energy of the market. Mrtools has now added his Divergences Pack + MTF which produces some very accurate reversal signals. Download: <https://forex-station.com/viewtopic.php?p=1295421341#p1295421341>

◆ Robert Miner's DTOSC (Dynamic Trader Oscillator) is based on the Stochastic RSI, but with Mrtools' help, this non-repainting code is now equipped with MTF + Floating Levels + Color Change on Slope/Crosses & more, making it more than ideal for scalping: <https://forex-station.com/viewtopic.php?p=1295421581#p1295421581>

◆ The Volume Weighted MACD for MT4 is based on Tick Volume, but studies have shown a strong correlation between Real & Tick Volume meaning this code can be used on MT4 platforms without compromise. Download Mladen & Mrtools' non-repainting version: <https://forex-station.com/viewtopic.php?p=1295421227#p1295421227>

Our dedicated Waddah Attar topic has grown & Mrtools has further developed the non-repainting Waddah Attar Explosion to version 2.4 for MT4. New options such as Color Change on Intensity & MACD Price makes this tool ideal for trading Spot FX & Crypto: <https://forex-station.com/viewtopic.php?p=1295420946#p1295420946>

◆ When it comes to RSI indicators, the non-repainting "RSI MA 6 Lines" is one of the best & Mrtools has now added his renowned Divergences Pack to this uncompromising code (suggested by TEAMTRADER). Equipped with a myriad of options, try our template too: <https://forex-station.com/viewtopic.php?p=1295420701#p1295420701>

The Waddah Attar Def RSI provides clear & apparent trend trading signals that are reliable & easy for all traders to use. Recently upgraded by member Sergei who has added MTF + Interpolation & Alerts, this code is now even more robust for swing trading: <https://forex-station.com/viewtopic.php?p=1295420472#p1295420472>

□ One of the most popular questions we're asked by traders is if we can recommend them a good "Stochastic Divergence" indicator. This particular code by Mrtools is from Forex-TSD & is still our favorite. Ideal for scalping & spotting Divergences, download: <https://forex-station.com/viewtopic.php?p=1295420298#p1295420298>

□ The Step OMA (One More Average) has now received an update by Mrtools which sees this advanced, non-repainting indicator equipped with a new & optimized Step calculation + Pip-based Outer Bands which can be used as a channel for trends or reversals: <https://forex-station.com/viewtopic.php?p=1295420221#p1295420221>

◆ The Dynamic Cycle Explorer for MT4 has now received Mrtools' Divergence Pack including Classic + Hidden Divergences, Arrows on Overbought & Oversold & many more options, making this non-repainting indicator perfect for swing trading. Download: <https://forex-station.com/viewtopic.php?p=1295420016#p1295420016>

◆ The SRSI (Sell Gravitational Index) by Mladen has now received Mrtools' Jurik Smoothing to help combat noise without being too laggy. With the addition of Jurik Smoothing, we like to use 0.23 & -0.23 Fibonacci levels for turning points. Download: <https://forex-station.com/viewtopic.php?p=1295420018#p1295420018>

◆ The weekend is generally quiet but there's always space for posts, especially if it's an interesting new tool such as Mladen's SRSI "Sell Relative/Gravitation Index" for MT4 that was posted by one of our contributors. Ideal for trend scalping, download: <https://forex-station.com/viewtopic.php?p=1295419167#p1295419167>

◆ Legendary trader Dawn Bolton-Smith (aged 87) famously quoted that the "ADX was the only tool that kept her from bankruptcy". But... did her ADX repaint? Mrtools' non-repainting version of Wilder's DMI finally turns the ADX into an all-in-one indicator: <https://forex-station.com/viewtopic.php?p=1295419856#p1295419856>

◆ The Step Ehlers' Tracking Filter has now received Mrtools' "Dynamic Zone" treatment which sees this indicator become even more potent for entering trends. Forex-station | Our Story

Forex-station was founded in 2016 and is a specialist trading community which houses the World's largest database of non-repainting technical indicators for the MT4 & MT5 trading platform. Based in Sydney (Australia) the site is run by traders, coders and contributors who share a passion for creating institutional grade, real-time (non-repainting) indicators, EA's, scripts and systems to help traders and investors make the right decisions when it comes to selling or buying in the market. As of 2020, Forex-station is managed by four senior staff members:

• Mrtools - Head Coder & Moderator
Mrtools is a coding prodigy and has been trading and programming for over 15 years. He has been a part of the Forex "phenomenon" since the very start and is famously known for creating some of the world's most sought-after technical analysis tools. His coding style closely follows Mladen's and is evident in the amount of detail presented in his options and settings. He manages the site by moderating topics and helping members who require coding assistance.

• xard777 - Moderator
Xard is a strategy expert and his well-known for his legendary "Simple Trend Following System". He has been creating trading systems for over 10 years and is a veteran trader who is focused on trading Indices and Spot FX. Xard manages the site by moderating topics and helping those who require advice in trading and strategy assistance.

• Banzai - Moderator
Banzai is a long-time trader and has been a member of the Forex-TSD and Forex Station communities since the start. He is a proficient trader who has a knack for creating some of the most beautiful templates and technical indicator setups, ever. Traders know Banzai for his deep understanding of technical indicators, impeccable chart templates, emphasis on simplicity and his minimalist approach in presenting content. Banzai moderates topics and helps organize the site as well as creating captivating indicator displays. He regularly posts his new findings and creations and is one of the most helpful traders in the community.
