

TRADING RULES

As mentioned above, the system scans for many variables behind the scenes and alerts us when specific conditions are met. My goal by creating it was very simple - so that you DO NOT waste time on calculations - you can focus on trading!, so that you can make a decision whether or not to take a trade.

ALL the trading rules are scanned by the system. However, our mission as traders is to understand how the system works and to be aware of what we should trade and why.

That's why knowing the rules and using them is vital to our success.

I've also mentioned that **we have two types of setups we could trade: Conservative and Aggressive.**

Let's start by looking at the **Conservative setups**: Long (**Buy**) and Short (**Sell**):
