

Rule No.7

Enter the trade:

Once Rule No. 3 (False Break) and Rule No. 4 (Momentum Gain) criteria are met, the system draws 3 dotted lines.

- The **Blue dotted line** represents the **Buy Limit level**. Once this level is reached, **that is the point we can enter a Buy trade**.
- The **Red dotted line** represents the **Stop Loss (SL) level** at which our SL is placed
- The **second Blue dotted line above price entry** represents our **take profit target level**.
