

Rule No. 7

Enter a trade.

Once Rule No. 3 (False Break) and Rule No. 4 (Momentum Gain) criteria are met, the **system draws 3 dotted lines**.

- 1) The **Blue dotted line** represents the **Buy Limit level**. Once this level is reached, that is the point we can enter a Buy trade.
- 2) The **Red dotted line** represents the **Stop Loss (SL) level** at which our SL is placed
- 3) The **second Blue dotted line above price entry** represents our **Take Profit target level**.
