

Rule No. 7

Enter the trade.

Once Rule No. 3 (False Break) and Rule No. 4 (Momentum Gain) criteria are met, the system draws 3 dotted lines.

- 1) The **Orange dotted line** represents the **Sell Limit level**.
Once this level is reached, that is the point we can enter a Sell trade.
- 2) The **Red dotted line** represents the **Stop Loss (SL) level** at which our SL is placed
- 3) The **second Orange dotted line below entry price** represents our **Take Profit** target level.
