

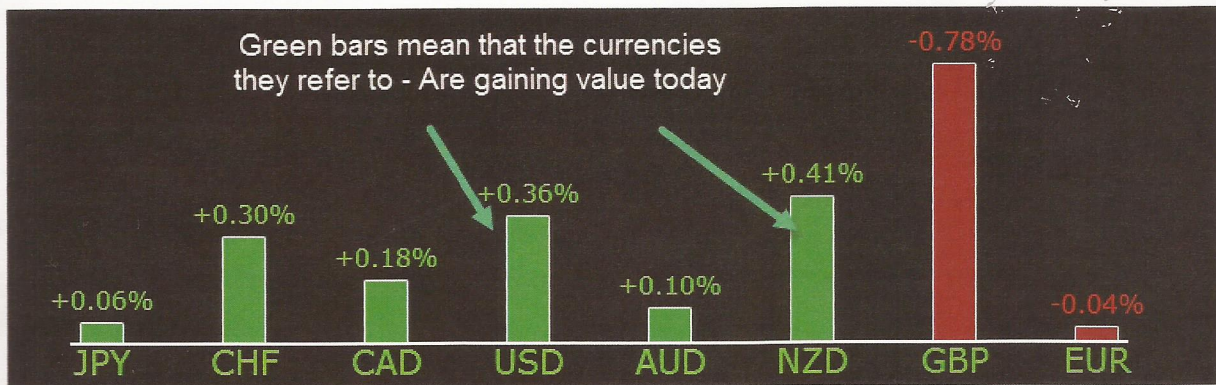

Image 45

When a bar is **Red**, this signifies that the relevant currency the bar refers to has been **decreasing in value on the day**

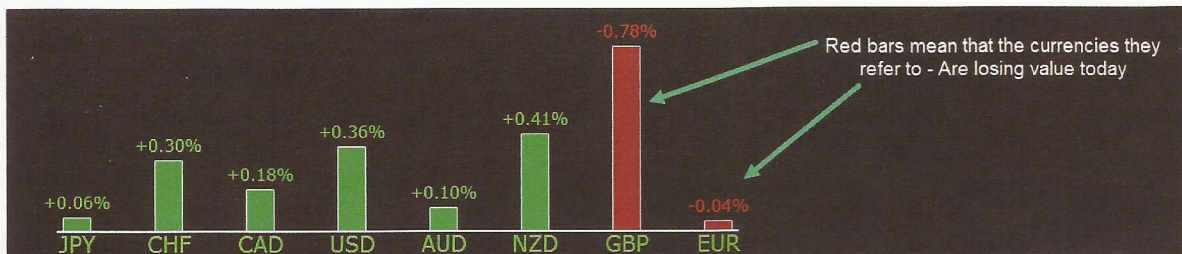

Image 46

The % (percentage) that appears above the bars shows you the percentage of value gained or lost by the currency since the start of the current day.

Image 47

In the previous four images above we can determine that the GBP (pound) currency was losing the most value and that the NZD (New Zealand Dollar) and the USD (U.S. Dollar) gained the most value.
