# Description of the advisor GS Spider 2020

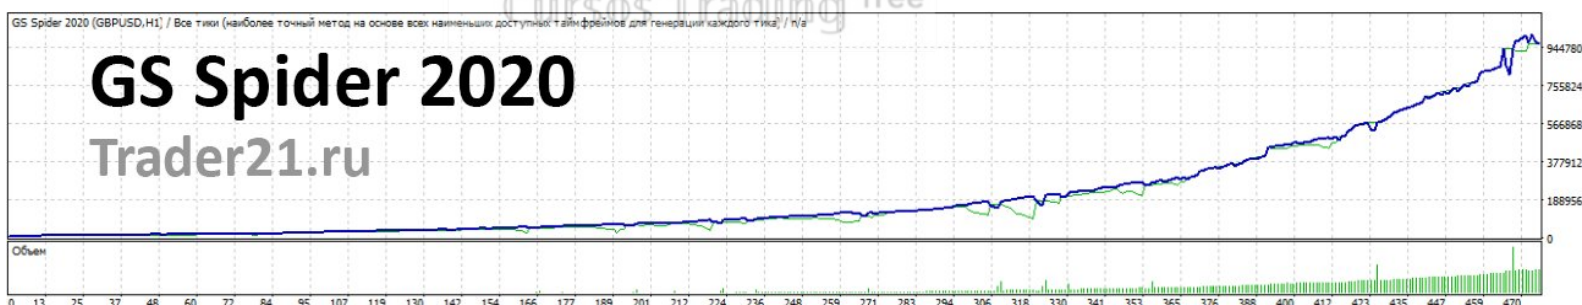

**The GS Spider 2020 robot** is the most stable and profitable version of the already well-known profitable trading advisor from the **Trader21.RU** project . The robot was released in 2020 and was created for professional investing in the forex market. The robot can work on more than 20 currency pairs in a fully automatic mode. In its strategy, the EA uses a grid structure of orders with unique logic, which is one of the best developments at the moment among all existing grid algorithms!

**The trading robot GS Spider 2020** uses a smart algorithm for opening deals: unlike other grids, GS Spider 2020 does not open rash counter-deals in an accelerating market - it first waits for consolidation - and only then enters the market, which improves the entry point by increasing chances of a price reversal. As a result, the robot gets a safer closing of the order grid against the trend.

The **GS Spider 2020** robot can now rightfully be considered a professional investment tool, since its functionality and options allow you to make money in a wide variety of market areas! The EA can trade not only in two directions on the range market, but also in one direction - towards the potential of the daily timeframe. When trading on the H1 timeframe, the robot can withstand a recoilless movement of **more than 1000 points**, which makes it an almost "unsinkable" grid Forex robot.

Below are the tests of the **GS Spider 2020** advisor on the GBPUSD currency pair for the period January 2018 - January 2020: from the initial deposit of \$ 10,000, the adviser made more than \$ 900,000 in profit!

Just **GS Spider 2020** constantly monitors lotnost Buy / Sell orders, calculates the optimum levels bezubytka and profits, as well as can increase Equiti in cycles, which makes it quite safe to make a good profit on the course.

The Expert Advisor withstands market crashes like a sharp rise in the Swiss Franc (USDCHF in January 2015) or a sharp drop in the British Pound after the Brexit referendum (GBPUSD in June 2016).

The real trading account of the GS Spider robot can be viewed on **MyFxBook** , where the advisor **increased the deposit by 626% in 4 months, earning over 6000 points** .
