

USA Bank Academy FX Hedge Fond Strategy V1.0

Indicators Overview:

- "BLUE" or "MAGENTA" Trend indicator. It shows you a weekly Global Trend. If it is colored in "BLUE" that means Trend is "BUY" and you can look for "BUY" setups only
- If it is colored in "MAGENTA" that means Trend is "SELL" and you can look for "SELL" setups only
- Light Blue Line (AQUA) is the line where you can place your STOP LOSS, also as a price moves, this line is dynamic and you can use it as a "TRAIL STOP"
- "WHITE LINE" is the line where you can place your order (BUY or SELL)
- "YELLOW LINE" is the line of your first TP1
- "MAGENTA LINE" is the line of your second TP2
- "LIGHT BLUE LINE (AQUA)" is the line of your 3rd TP3 (Often used as a Trail SL)
- KEEP ON MIND : When price hits your TP1, move your SL on Break Even, and after that use "LIGHT BLUE LINE (AQUA)" as your Trail SL

USA Bank Academy FX Hedge Fond Strategy V1.0 (BUY RULES):

(BUY RULES):

- Trend must be for BUY (BLUE BARS)
- When you first detect a global trend (bottom trend indicator), load the appropriate TEMPLATE for that direction, in this case it is "BUY TEMPLATE"
- After you notice that the candle has touched or passed through "LIGHT BLUE LINE (AQUA)" after your Closed previous trades or Stop Loss hit, place pending order (BUY STOP) on "GREEN LINE" which is located above "LIGHT BLUE LINE (AQUA)"

- When BUY STOP is activated you will be shown the network with the displayed (ENTER line "WHITE", TP1 line YELLOW, TP2 line MAGENTA). Place your TP1/TP2 there, and SL few pips below "LIGHT BLUE LINE(AQUA)", for TP3 use Trail Stop and close TP3 when Price hit "LIGHT BLUE LINE(AQUA)"
- NOTE: The Advice is when you enter in BUY (manually or with pending order) (Do this with 3 orders), because you have 3 TP (TP1/TP2/TP3)
- KEEP ON MIND : When price Hit your TP1, move your SL on Break Even, and after that use "LIGHT BLUE LINE(AQUA)" as a your Trail SL

(BUY RULES) EXAMPLE :

As you can see here you have 3 times the TP all together + 1433 pips in the wave

USA Bank Academy FX Hedge Fond Strategy V1.0 (SELL RULES):

(SELL RULES):

- Trend must be for SELL (MAGENTA BARS)
- When you first detect a global trend (bottom trend indicator), load the appropriate TEMPLATE for that direction, in this case it is "SELL TEMPLATE"
- After you notice that the candle has touched or passed through "LIGHT BLUE LINE(AQUA)" after your Closed previous trades or Stop Loss hit,place pending order (SELL STOP) on "GREEN LINE" which is located below "LIGHT BLUE LINE(AQUA)"
- When SELL STOP is activated
you will be shown the network with the displayed (ENTER line "WHITE", TP1 line YELLOW,TP2 line MAGENTA).Place your TP1/TP2 there ,and SL few pips above "LIGHT BLUE LINE(AQUA)",for TP3 use Trail Stop and close TP3 when Price hit "LIGHT BLUE LINE(AQUA)"
- NOTE: The Advice is when you enter in SELL (manually or with pending order) (Do this with 3 orders),because you have 3 TP (TP1/TP2/TP3)
- KEEP ON MIND : When price Hit your TP1,move your SL on Break Even,and after that use "LIGHT BLUE LINE(AQUA)" as a your Trail SL

(SELL RULES) EXAMPLE :

If Stop Loss is a Hit Sometimes, it looks like this:

If you want to have easier visibility in terms of candle sticks, you can also use colored candle sticks in the colors of the weekly trend.

You get this indicator of colored candles in the content, so you can use them as much as you like your eyes than ordinary candle sticks. Just load BUY TEMPLATE WEEKLY BARS or SELL TEMPLATE WEEKLY BARS

Take a look below:
