A GUIDE THROUGH THE WORLD OF INTERBANK TRADING CONCEPTS

MARKET STRUCTURE MASTERCLASS

In Market Structure MasterClass Discussion:

- ICT Market Structure Essentials
- The Higher Time Frames Protocol
- ICT Market Structure Advanced
- ICT Advanced Market Structure with Order Blocks
- Swing Projections for Market Structure Targets
- High Probability Trading vs Low Probability Trading

A hand holding a camera lens against a dark background. The lens is held in the center, and its reflection is visible on the surface it's looking at. In the background, a person is blurred, suggesting a focus on the lens and the text.

ICT MARKET STRUCTURE ESSENTIALS:

FIND YOUR WAY THROUGH PRICE

The trap Aspiring Traders fall into...

Trader Paralysis

Find your way through price with clarity

ICT MARKET STRUCTURE ESSENTIALS:

WHAT TRADER WILL YOU BE?

The first step is to find out what
type of trader you are going to be...

How to develop faster as a Trader:

A fractal is a never-ending pattern.

Each trading style has its own unique set of time-frames

An aerial photograph of a straight road cutting through a dense forest, with the road leading towards a distant horizon. The image is dark and moody, with the road acting as a central axis of perspective.

ICT MARKET STRUCTURE ESSENTIALS: LONG-TERM PERSPECTIVE

The highest of our selected time-frames will serve as our "Long-term Perspective".

97.000

The highest of our selected time-frames will serve as our "Long-term Perspective".
Once a level from our long-term perspective becomes activated, this sets up trading opportunities.

The highest of our selected time-frames will serve as our "Long-term Perspective".
Once a level from our long-term perspective becomes activated, this sets up trading opportunities.
We want to base our trades on levels found of the Long-term Perspective since we want to trade with the Parent Order Flow.

We are not looking for an "Entry" on the Long-term Perspective, we are looking for "Opportunities".
Once a level from the Long-term Perspective becomes activated, we can start finding trading opportunities on the Lower Time Frames.

Think in terms of Power of 3

The Long-term Perspective gives us our Draw on Liquidity.

Parent Order Flow Activated

When we know where price is heading, we can start looking for evidence of the Price heading towards it via Subordinate Order Flow.

ICT MARKET STRUCTURE ESSENTIALS:

INCORPORATING OTHER TIMEFRAMES IN CONJUNCTION WITH YOUR FRAMEWORK

Incorporating Other Timeframes in Conjunction with your Framework:

First Scenario:
Your long-term Perspective is unclear.

Adjusting Perspectives: Shifting up a scale

Since the Daily Chart was not clear, we are going to use the Weekly Chart as our Long-term Perspective instead.

Blend the 2 timeframes to form a Long-term Perspective.

Now after looking at the Weekly Chart, we can refine those levels on a Daily Chart.
Trading Ranges and Key Levels become more clear.

Take action on the Intermediate-term Perspective as normal.

You are still following the framework of Long-term Perspective, Intermediate-term Perspective and Short-term Perspective.

Action Step:

Download the sheet I have provided below.

Find out what type of trader you are.
