Premium Price-Based Chart Software User Guide

Our Premium Renko Price-Based Chart Software works on MetaTrader4. You need to install MetaTrader4 first if you haven't.

I recommend using Forex.com Metatrader for the Price-Based Chart Software. This is what we use for our testing and the software works flawlessly with it.

Download Forex.com Metatrader here: http://www.forex.com/metatrader_download.html

Then, follow the steps below to install our Price-Based Chart software:

Step 1: Install The Plug-In:

First, you should have already downloaded the ZIP file containing all the installation files from your members area. Inside that ZIP file, there are 2 files: RenkoBarChart.ex4 and RenkoBars.dll

Next:

For build 574 and later:

Click File --> Open Data Folder
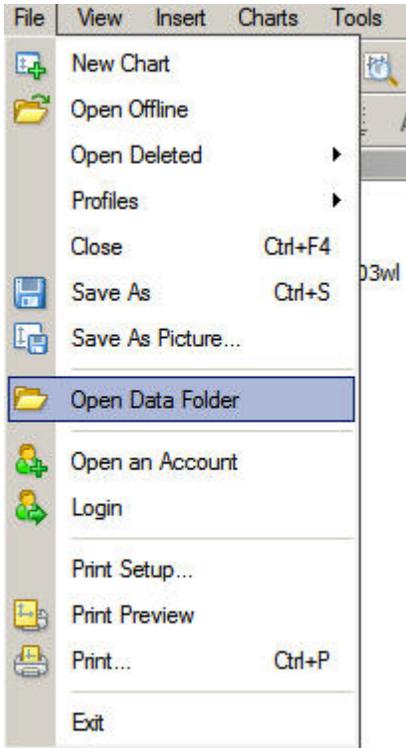

Once you have that data folder open, locate the MQL4 folder inside it. Then open that MQL4 folder:
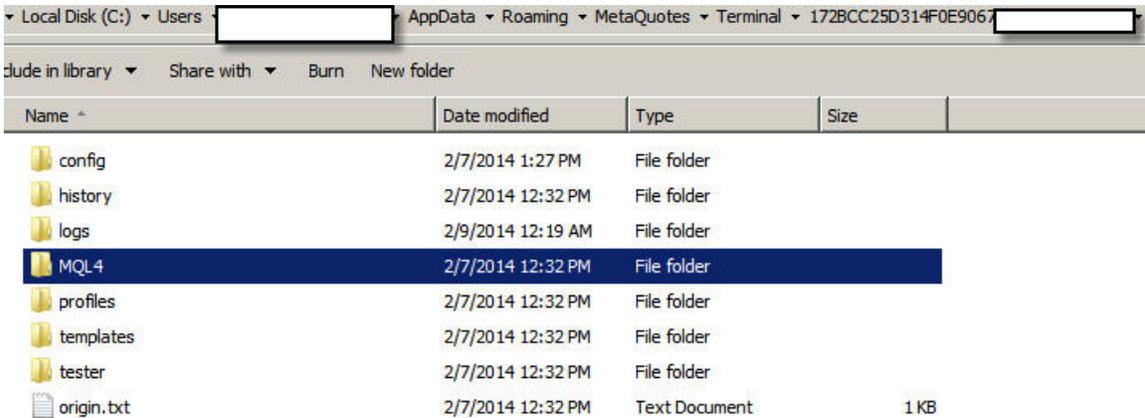

Inside that MQL4 folder, you will see these two folders: \Experts and \Libraries

▾ ▾   Share with ▾   Burn   New folder

Name ▴	Date modified	Type	Size
Experts	2/9/2014 12:26 AM	File folder	
Files	2/7/2014 12:32 PM	File folder	
Images	2/7/2014 12:32 PM	File folder	
Include	2/7/2014 12:32 PM	File folder	
Indicators	2/7/2014 12:32 PM	File folder	
Libraries	2/9/2014 12:18 AM	File folder	
Logs	2/9/2014 12:13 AM	File folder	
Presets	2/7/2014 12:32 PM	File folder	
Projects	2/7/2014 12:32 PM	File folder	
Scripts	2/7/2014 12:32 PM	File folder	

Copy the RenkoBarChart.ex4 (from the ZIP file you downloaded) to that \Experts folder (this is a subfolder within the MQL4 folder)

Share with ▾   Burn   New folder

Name ▴	Date modified	Type	Size
MACD Sample.ex4	2/7/2014 12:32 PM	EX4 File	8 KB
MACD Sample.mq4	2/7/2014 12:32 PM	MQL4 Source File	6 KB
████	1/30/2014 10:17 PM	EX4 File	20 KB
████	1/30/2014 10:11 PM	MQL4 Source File	23 KB
████	2/7/2014 12:32 PM	EX4 File	13 KB
████	2/7/2014 12:32 PM	MQL4 Source File	5 KB
mqlcache.dat	2/9/2014 12:18 AM	DAT File	6 KB
RenkoBarChart.ex4	2/9/2014 12:20 AM	EX4 File	20 KB
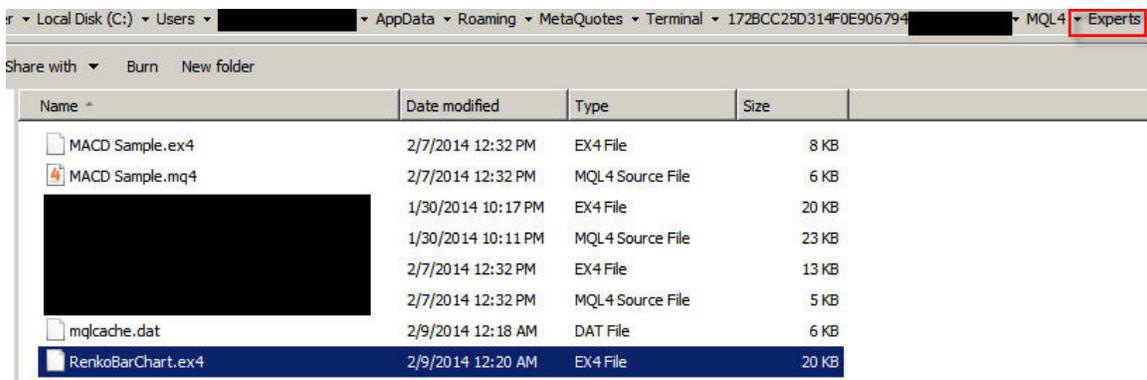

Then, copy the RenkoBars.dll (from the ZIP file you downloaded) to the \Libraries folder (this is a subfolder within the MQL4 folder):

y ▾   Share with ▾   Burn   New folder

| Name ▴	Date modified	Type	Size
████	1/29/2014 6:13 PM	Application extension	51 KB
mqlcache.dat	2/7/2014 12:32 PM	DAT File	2 KB
RenkoBars.dll	2/9/2014 12:14 AM	Application extension	51 KB
stdlib.ex4	2/7/2014 12:32 PM	EX4 File	16 KB
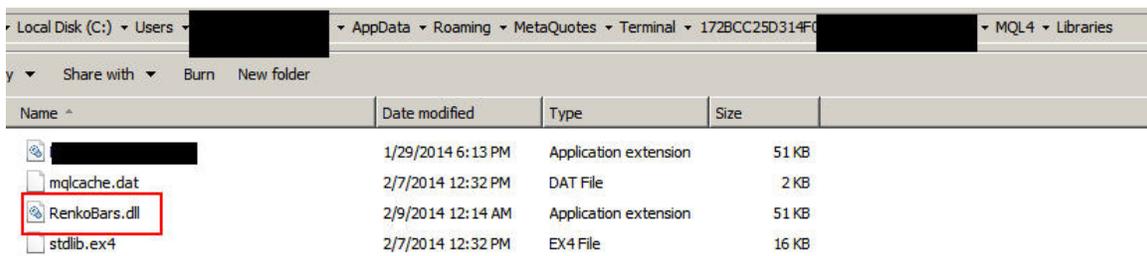

That's it. You're all set.

If you use version older than build 574: (this rarely happens. Most of you will have version later than 574 and do NOT need to read this)

Then simply copy the RenkoBarChart.ex4 to the /experts folder and the RenkoBars.dll to the /experts/libraries folder within your Metatrader4 installation folder. Then proceed to the next step.

Step 2: Close and Restart Metatrader4. Click on Tools --> Options --> Expert Advisor.

Then, make sure you tick the option Allow DLL imports and Allow external experts import.

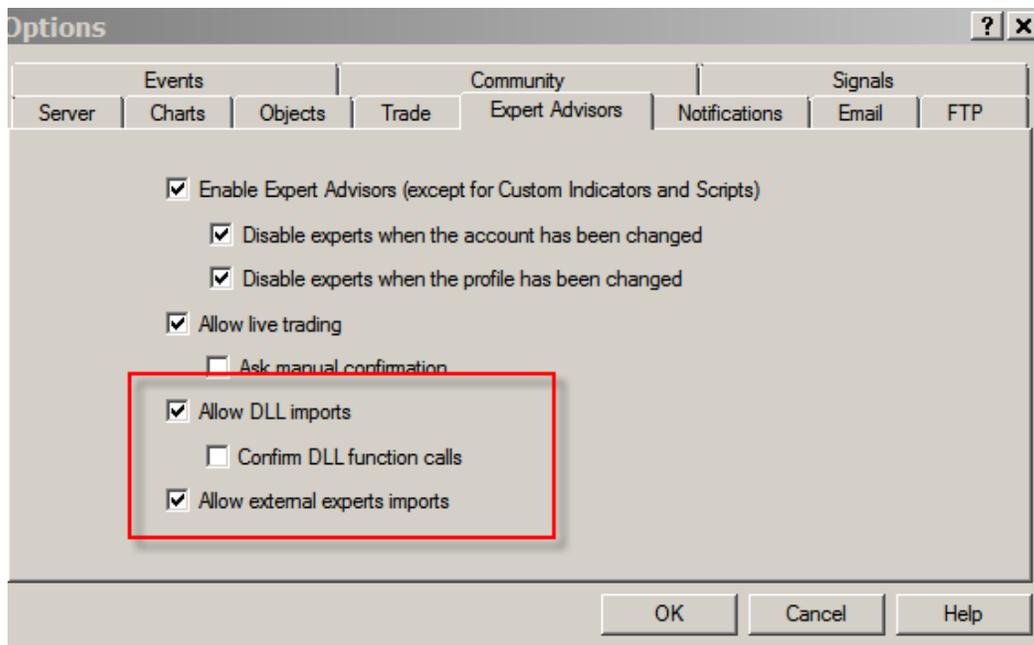

Step 3: Open the M1 (1-minute) chart of any instrument, for example, EURUSD M1. Then, from the Navigator panel, right-click on RenkoBarChart --> Attach to a chart... to attach the Price-Based Chart Software to the chart.
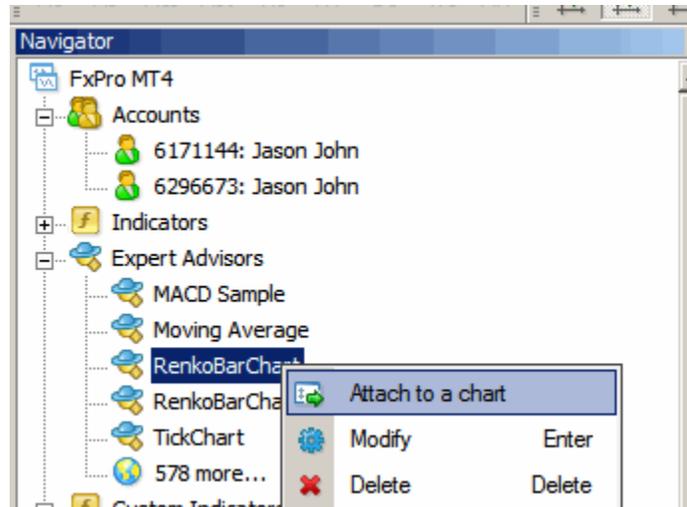

Step 4: Make sure the Expert Advisor button on the Metatrader toolbar is green, like this:

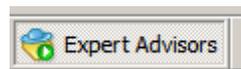

If it's red, like this:
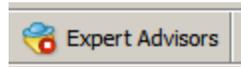

Then click on the button, so that it turns green.

Step 5: Close and Restart Metatrader4. Click File --> Open Offline
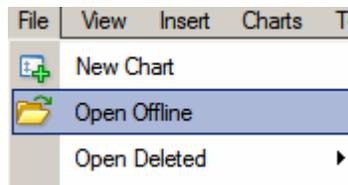

Then choose the M3 chart of the instrument that you attach the software to. For example, if you attach the software to the M1 chart of USDJPY, then choose USDJPY M3 and double click on it:

| USDJPY,M1 | 5300323 | 1971.01.04 00:00 | 2014.01.23 07:34 |
| USDJPY,M3 | 169905 | 1971.01.06 00:00 | 2014.01.23 06:26 |

It will open up a new chart which is the Premium Price-Based Chart the software generates.

This chart will update in real time as it receives new data.

OPTIONAL:

If you want more historical bars in your Price-Based Chart, click Tools --> History Center. Then choose the instrument you want, choose M1, then click download.

It will download more historical data. As a result, you see more historical data on your Price-Based Chart.

Thanks for purchasing this.

I wish you the best of luck.
