Welcome to the Easy Binary Income members area,

Congratulations on making it here you made a great decision and I am going to do everything in my power to make you a success with my Binary Software.

This software WORK, it has made me hundreds of thousands of dollars in the last year alone and continues to do so BUT, I must stress that you have to **TAKE ACTION** for it to work for you!

What are going to be doing is using my software to trade Binary Options, there is no room for error, judgement or mistakes with this because my software will tell you **EXACTLY** when to place a trade to profit with.

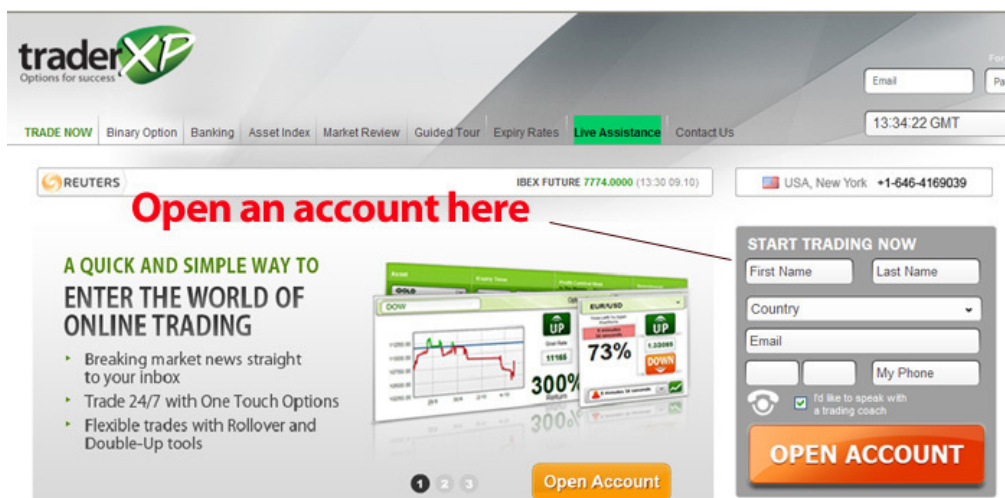

Now I'm sure a lot of you have never traded before in your life and that's fine because all you need to do is follow the instructions below to the letter and everything will become clear...

It's YOUR success that drives us to release quality products, so we look forward to working with you closely to make Easy Binary Income a complete success for you.

So without further ado let's get started...

Step 1: The first thing we need to do is open an account with a Binary Options Trading broker, we recommend using [THIS BROKER](#) for best results.

[Click HERE To Open An Account And Get Up To \\$1000 FREE When You Deposit And Start Trading!](#)

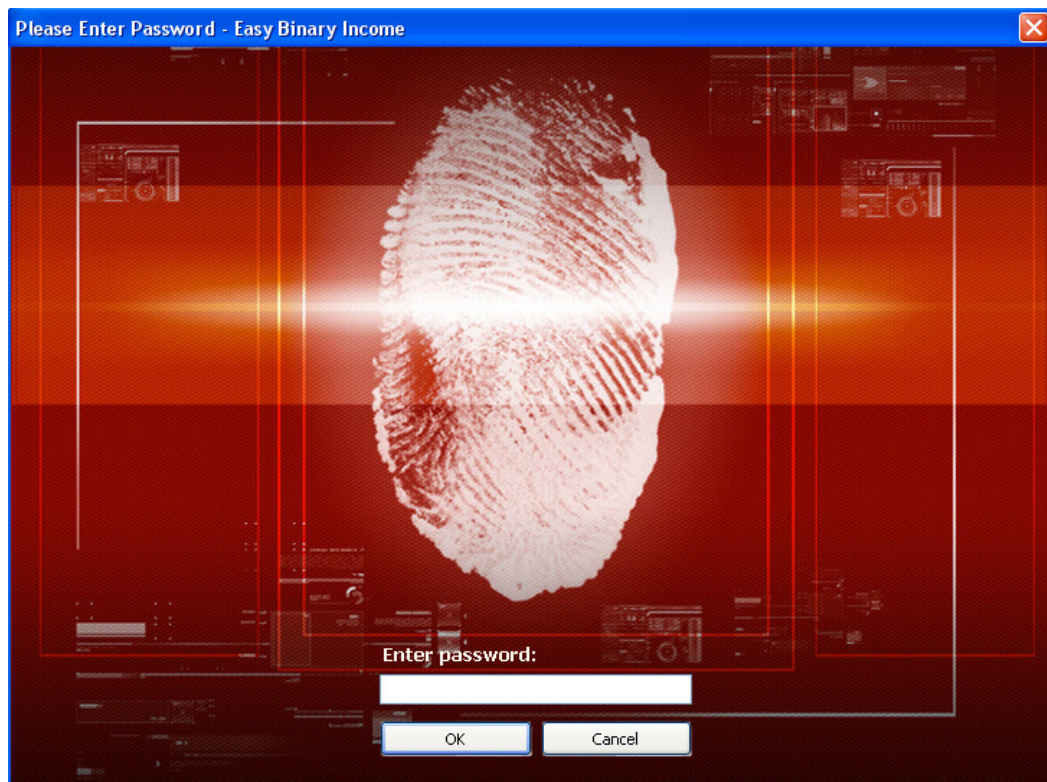

The screenshot shows the traderXP website interface. At the top, there's a navigation bar with links like 'TRADE NOW', 'Binary Option', 'Banking', 'Asset Index', 'Market Review', 'Guided Tour', 'Expiry Rates', 'Live Assistance', and 'Contact Us'. Below this, there's a large banner with the text 'Open an account here' in red. To the left of the banner, there's a section titled 'A QUICK AND SIMPLE WAY TO ENTER THE WORLD OF ONLINE TRADING' with bullet points: 'Breaking market news straight to your inbox', 'Trade 24/7 with One Touch Options', and 'Flexible trades with Rollover and Double-Up tools'. In the center, there's a small image of a trading software interface showing a line graph and various indicators. To the right, there's a 'START TRADING NOW' form with fields for 'First Name', 'Last Name', 'Country', 'Email', and 'My Phone'. There's also a checkbox for 'I'd like to speak with a trading coach' and a large orange 'OPEN ACCOUNT' button.

Step 2: Now you need to download, unzip and install the Binary Options Magnet software using the link below.

[Click HERE To Download The Easy Binary Options Software](#)

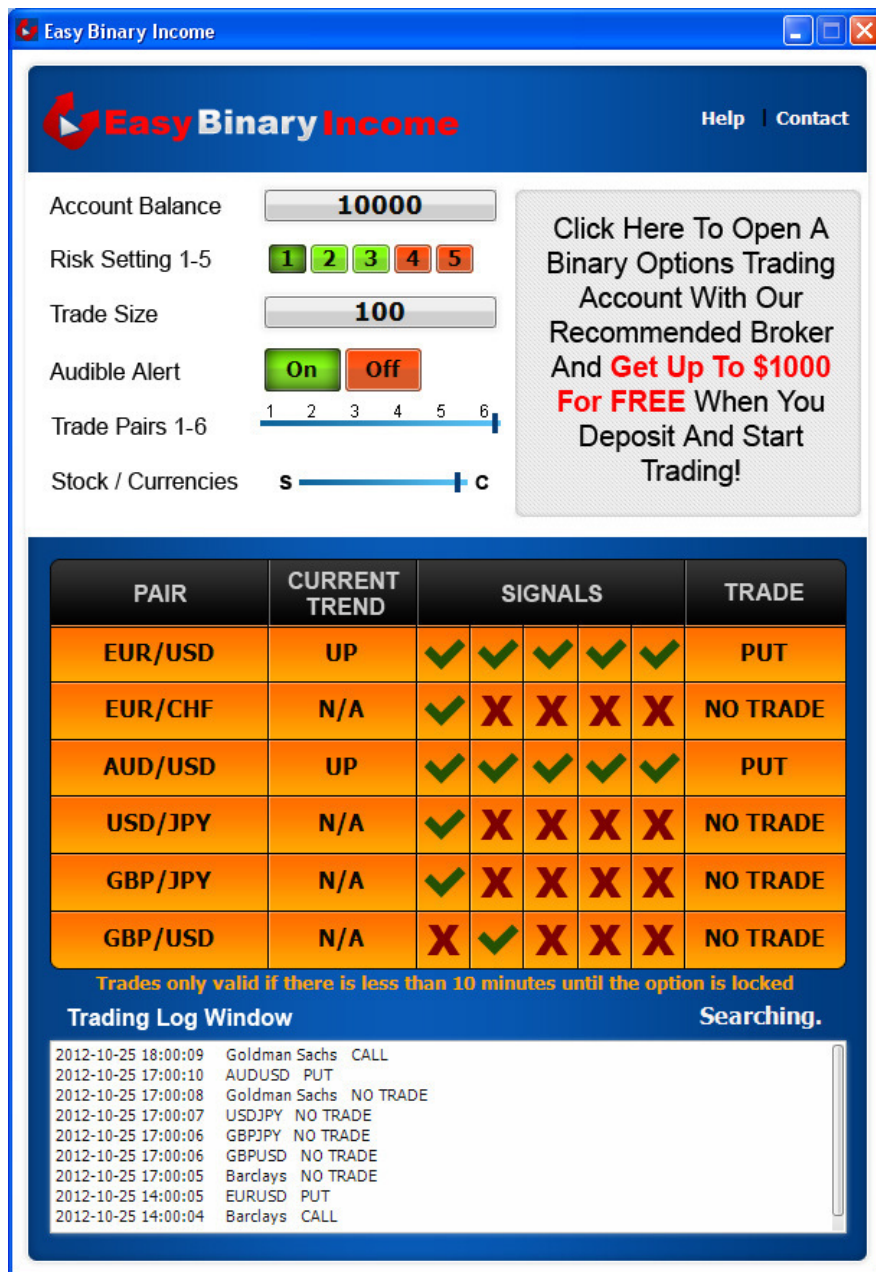

Step 3: You need to Once you have unzipped your software and run the .exe file you will see the licensing screen below you need to add your licence in the input area, your licence is below:

Your Licence Key: 75b1485911533189e7ecd4f9c12a97ed

Step 4: You should now see the following software as in the picture below, this is my Binary Options Magnet Advanced software!

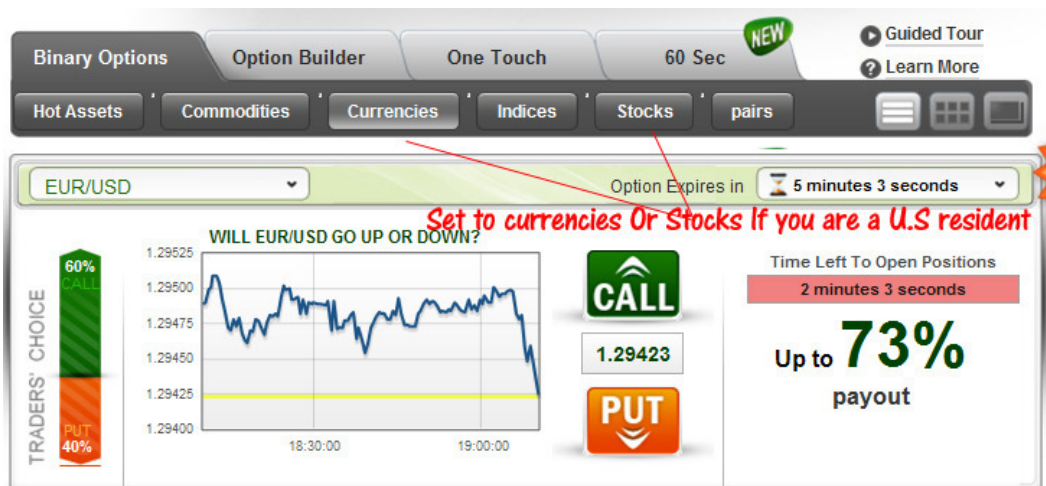

There is a dropdown list at the top of the software where you can select which pair you want to trade, we suggest starting with the Eur/Usd pair before moving onto others, the '5 minute' timeframe cannot be changed, that is the timeframe the system runs from as it takes the signals from our servers.

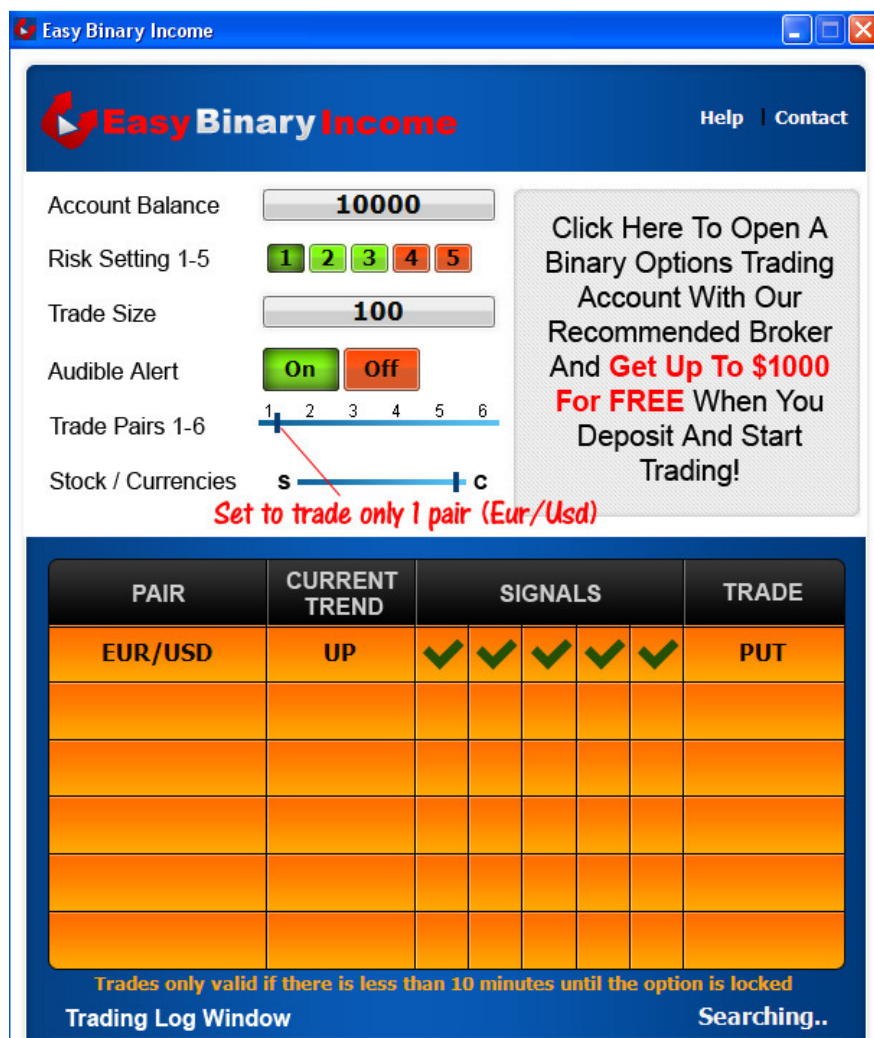

Step 5: Implementing the software with the binary options trading platform.

There are a number of rules you need to follow before you place a trade.

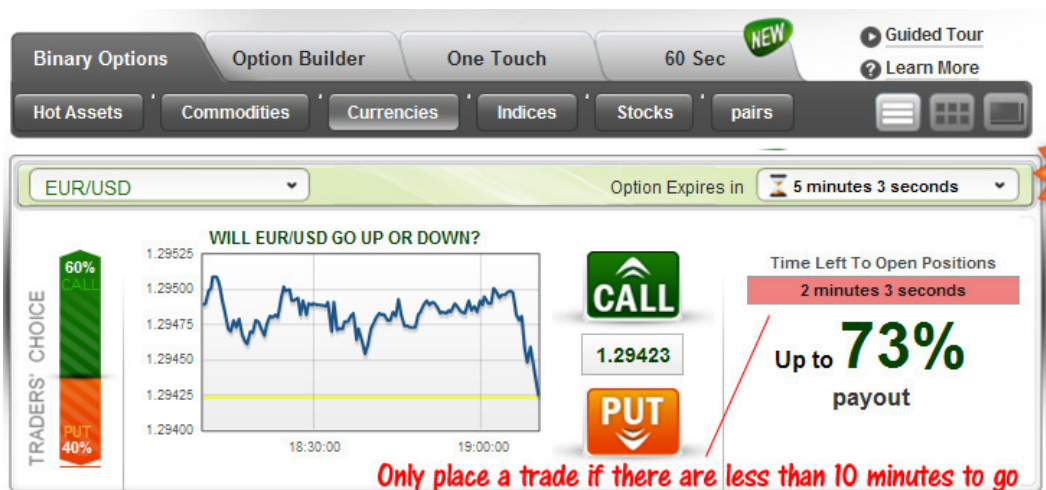

1. Make sure you have your binary options brokers trading window open and set to 'currencies' Or if you are a U.S resident then you will have to trade 'Stocks' as currencies are not allowed to be traded.

2. In this example we are going to concentrate on the Eur/Usd options so firstly we set the software to trade only 1 pair using the 'Trade Pairs 1-6' setting and setting it to '1'.

3. Next we look for the Eur/Usd options on our brokers trading, we are looking for options that have **10 minutes or LESS remaining to place a trade**, if they have longer than this then we are not going to bid on them, in the example below the options has 2 minutes and 3 seconds left before you can no longer place a trade so any signal from the software now is valid.

4. Once you have found an option that has 10 minutes or less remaining you now need to turn your attention to the software and the 'criteria' points, you now need to wait until they all have a tick next to them and once this happens look at the signal (either Buy/Call or Sell/Put)

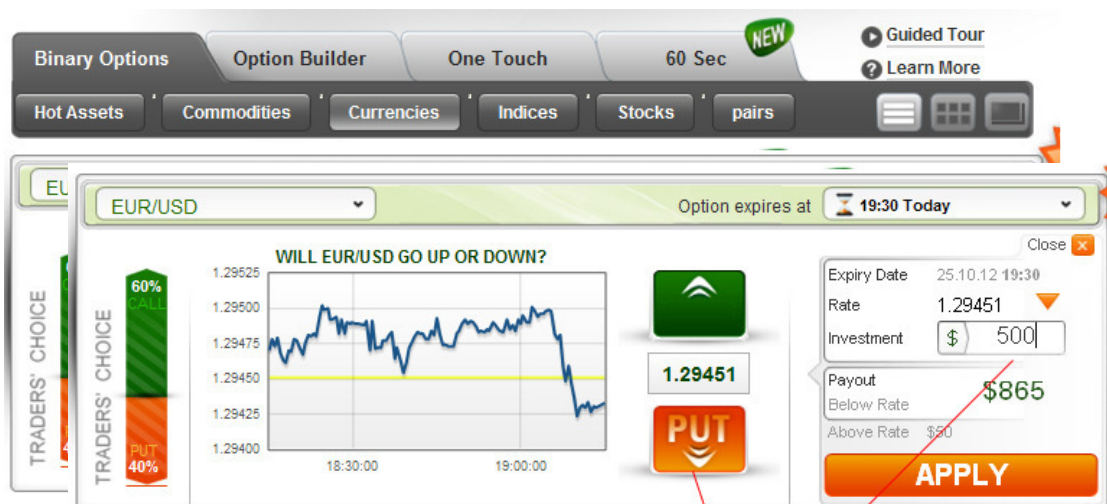

PAIR	CURRENT TREND	SIGNALS					TRADE
EUR/USD	UP	✓	✓	✓	✓	✓	PUT

Sell Trade

PAIR	CURRENT TREND	SIGNALS					TRADE
EUR/USD	UP	X	X	✓	X	X	NO TRADE

No Trade

5. Once this criteria is met it's time to place your trade, simply click either Put or Call and enter the amount you want to trade.

Click Put or Call depending on the software signal and enter the amount you wish to trade

6. Now you have placed your trade it's just time to wait until the option expires and you can collect your money.

If you follow these instructions to the letter you are going to REALLY enjoy trading Binary Options, if you have any questions about the setup or trading procedure whatsoever please don't hesitate to contact directly at support@easybinaryoptions.com and I will be more than happy to help you out.
